Dear Parents,

As you are already aware we will be offering an After-School Enrichment Program along with our existing After-Care Program. Please see attached information and flyers for our clubs/programs. Space is limited and will be on a first come first served basis. All deposits must be received by June 29th.

As this program is in addition to our existing After-Care Program, there will be additional cost for the various clubs and activities. (Please see attached flyers).

Your child can attend any club/activity even if they do not attend the After-Care program. However, please be advised all clubs/activities begin at 3:30 and end at 4:30 PM. The options are: your child can attend After-Care and then will automatically attend the club/activity that he/she is registered for. The other option is that your child is dismissed at 2:30 and then returns at 3:30 for the club/activity, entering the After-Care door. This is where they will be dismissed at 4:30 PM.

Attached are descriptions of each club, a sign-up sheet and registration form. Please send back the forms with the clubs/activities you are interested in along with, a deposit for each activity. The balance must be paid before the start of the program.

We have done our very best to try and include something for everyone.

If you have any questions, please let us know.

Thank you and best regards,

**Mrs. Celeste Catalano
Mrs. Kristy Mulligan**

Get Up and Dance with Miss Brittany

Starting this fall, Sacred Heart will be offering an enrichment program where the students will learn hip hop! If your child loves to dance and have fun, this class is for them. Teaching this class will be Ms. Brittany McCoy. She has been a dancer her entire life and has choreographed for both elementary and high school productions. Currently, she is a dance teacher at her home studio and has been for the past 8 years. Throughout her dance career she has studied with master teachers and is trained in all styles of dance. She has also earned a Bachelor's Degree in Childhood Education from the College of Staten Island.

Each class, students will learn basic hip hop steps that will be encompassed into short routines they will learn throughout the course of our weeks together. This class will require energy, hard work, and FUN! Students will not only learn dance steps, but also grow in confidence and performance skills as well.

Program starts on September 17th - **SPACE IS LIMITED**

Time: 3:30 - 4:30 Grades: 1-4

Price \$240.00 (12 week program)

Please have your child bring sneakers to wear for the class.

Come dance and join the fun!

Cooking with Kids Coming to Sacred Heart Wednesday's this Fall!

SIGN UP TODAY-6 WEEK

PROGRAM-LIMITED SEATING

Cooking teaches children valuable skills like following directions, reading, math, science and problem solving. It has also been shown that kids are more likely to try new things when they help make them and kids who learn to cook at an early age are more likely to make meals from scratch when they grow up.

For this New After school enrichment class we are excited to welcome Pampered Chef Senior Director Caryn Pollock. She has not only been dazzling people with in home cooking parties for the past 6 years by demoing quick and easy recipes, she also specializes in Freezer Meal Workshops, Cooking & Baking classes, Girl Scout and kid's parties too. As a mother to three children she cooks with them on a regular basis, and even goes Live weekly from her home giving video tutorials.

In this 6 week course your child will learn basic cooking skills and leave each week making (and eating) a delicious recipe.

The cost will be \$120 per child, this will not only include the food, but also an apron and product to keep, valued at \$40.

The session will begin September 19th for grades K-3

Time: 3:30-4:30

Spots are limited, so be sure to register by June 29th ____

Chess Belts!

GRADES K-8

Develop your child's intellect through the fun game of chess! Current research has shown a strong link between chess and academic performance in a variety of areas, including mathematics and language arts. Also, chess has been proven to enhance motivation, concentration, focus, social skills, and creativity.

No previous knowledge of chess is necessary. Each class will consist of a fun, interactive teaching period and guided practice time. Both new and returning participants are welcome and will get to the next level under the guidance of an experienced Chess Scholars coach. There will also be a chess competition with prizes and a pizza party towards the end of the session! Each child will receive a participation medal and a chess keychain.

**Children's Yoga
With Miss CC**

Children are wise, radiant and joyful. Through yoga children can connect with their "inner light" and shine with this radiance and joy. Children learn breathing exercises to help them relax their mind, body and spirit. Children will be learning movement, relaxation and mindful meditation that will enrich their mental and physical health. Practicing yoga can help teach your child how to stay centered and have a clear, meaningful interaction with peers and adults. Introducing yoga to young children allows them to be part of a healthy activity that is not competitive, not judgmental, but rather, physically challenging and super fun! Practicing yoga will be a positive influence in your child's life.

The session will begin on Friday, September 21st

Grades K - 3

Time: 3:30 - 4:30.

The cost of this program is \$60.00 per child. (6 week program)

Your child must bring a yoga mat to class.

Seats are limited, so be sure to send in your deposit by June 29th.

I look forward to sharing the gift of yoga with your child.

Bricks 4 Kidz after school programs will be coming to Sacred Heart for this Fall. After a full day of learning comes one of those rare activities that makes math, technology and science come to life in a fun and meaningful way.

When you sign up your child for Bricks for Kidz after-school curriculum, he or she will build a different project each week out of LEGO Bricks. Each project begins with a lesson led by a teacher. Then they dive in with their partners and use their creativity and problem-solving skills to build their models, whether it's a machine, a building or some other structure.

Whatever the theme may be, each new project offers an opportunity to use their hands and minds to explore, solve problems and discover. They learn to cooperate and work with other children, all while picking up the fundamentals of things like architecture and engineering.

Best of all, these classes can reinforce what they are already learning in the classroom. When your child has a hands-on experience with a math or science concept, it comes to life and becomes real, reinforcing what they are doing in school. That will only set them up for continued success in the classroom. In the long run, they will gain the confidence they need to see problems as something that can be solved!

Course Information: Every Friday, beginning September 21st 2018

Time: 3:30 PM – 4:30 PM. (12 Classes) Price: \$240

Deposit due by June 29th
